What is the Affordable Care Act (ACA) and what does it mean for students?

You may have heard that the ACA made a lot of changes to health insurance, but for students the four most important things to know are:

- If you are over the age of 18 **you will likely be required to carry a health insurance plan**. If you are under 26, you can stay on your parents plan if they have one. If you are not covered by your parents' plan, an employer plan or through Medicaid, you will need to purchase a plan.
- All health plans will now cover **essential health benefits**. This includes doctor's visits, prescription drugs, emergency care and many other services.
- Premium assistance **tax credits** and cost-sharing options may be **available to reduce how much you pay**.
- If you are under 30, you can also buy what is called a "Catastrophic Plan". This may be a **more affordable** option, but it doesn't have as much coverage.

How do I select a plan that works for me?

Your Health Idaho has 61 individual and family health insurance plans to choose from.

Plans available from Your Health Idaho are grouped into four 'metal levels' based on the percentage of healthcare expenses each plan covers to make it easy to compare.

No matter which plan you choose, you will get the same set of essential health benefits:

- free preventive care
- coverage for prescription drugs
- emergency care
- hospitalization
- visits to doctors
- and many other healthcare services

Can I afford a health insurance plan?

Premium assistance tax credits and cost-sharing options are available to help with the cost of coverage. The amount you may qualify for depends on family size and your annual income.

If your income or family size changes over the year, your assistance level will be adjusted. You are responsible for making sure Your Health Idaho is aware of the change so that you do not have to pay the difference at tax time.

To access a premium assistance tax credit you will need to enroll in a plan that is sold on Your Health Idaho.
